## DETAILED ACTION

### *Election/Restrictions*

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-7, 18 and 20-26, drawn to an LCD with a liquid crystal having a resistivity of less than  $1 \times 10^{13} \Omega \text{cm}$ , classified in class 428, subclass 1.1.
- II. Claims 8, 10, 12-17, 19, 28 and 31, drawn to an LCD with a relative flicker intensity as specified, classified in class 349, subclass 33.
- III. Claims 9, 11, 27, 29, 30 and 32, drawn to an LCD with an increment of luminance as specified, classified in class 359, subclass 48.

The inventions are distinct, each from the other because of the following reasons:

Inventions I, II and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as an alignment layer as specified. Invention II has separate utility such as a reflective layer. Invention III has separate utility such as a luminescent layer of specified responsiveness. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

A telephone call was made to Stanley Fisher on 10 February 2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 1756

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jennifer R. Sadula whose telephone number is 571.272.1391. The examiner can normally be reached on Monday through Friday, 10am-6pm.
